3. JUBILEE ANZAAS CONGRESS, ADELAIDE 12 - 16 MAY, 1980

SECTION 25A : ARCHAEOLOGY
PRESIDENT : DR. NORMAN B. TINDALE, PALOALTO, CALIFORNIA.
CHAIR : VINCENT MEGAW, VISUAL ARTS, FLINDERS UNI., BEDFORD PARK.

PIECEING TOGETHER THE PAST : CONTINUITY AND CHANGE IN THE SOUTH AUSTRALIAN ARCHAEOLOGICAL RECORD.

In this Jubilee Year it is proposed to use the theme of continuity and change to offer a platform for papers devoted rather to synoptic and theoretical views rather than simply those putting forward factual accounts. It is intended to examine the archaeological record of not only pre-white contact Australia and that of non-Aboriginal and predominantly white settlement, but also to examine points of culture contact and transition as observable in the material record. Thus it is hoped that several topics of interest to other sections (Geography, Anthropology, History) will be discussed such as "Art in transition" and "The Archaeology of colonial Australia".

While particular emphasis will be placed on South Australia, as for example in the keynote addresses which are planned for each of the main topics listed below, offers of papers based on the evidence from other geographical regions, both within Australia and beyond, will also be welcomed.
3. JUBILEE ANZAAS CONGRESS, ADELAIDE 12 - 16 MAY, 1980 CONT'D.

Intending contributors are invited to submit proposed titles of their papers and summaries of not more than 200 words particularly where relevant to the following broad topics:

- The last 500 years of archaeology: facts, fancies and explanations.
- Economic resources and land forms: human exploitation.
- Historical archeology: the evidence from above ground and below the sea.
- Black and White: the imagery and archaeology of culture contact.
- New for old? "Tourist Culture" versus the dilemma of traditional culture.

Proposals should be mailed to the Section Secretary to arrive not later than August 15th, 1979.

In addition it is planned to hold at least one section excursion to an area of both Aboriginal and European archaeological interest.
